Who We Are

HWL (Healthcare Workforce Logistics) is a trusted leader in healthcare workforce solutions, offering technology-driven services that simplify and transform how healthcare systems source, manage, and optimize contingent labor. Our customized, vendor-neutral approach empowers organizations to reduce costs, gain transparency, and maintain flexibility across clinical and non-clinical roles.

We support everything from MSP and VMS programs to internal float pools, locums, and permanent placement coordination. HWL's proprietary technology and hands-on service model empower clients to improve workforce efficiency while enhancing care delivery.

Areas of Expertise

Cost Savings & Control
Proven strategies to reduce agency spend and improve budget predictability.

Data-Driven Insights
Real-time dashboards and analytics that empower smarter decisions.

Comprehensive Workforce Platform
One system to manage locums, travel, perm, and internal teams.

Vendor-Neutral Approach
Transparent, unbiased solutions tailored to your needs.

Deep Industry Experience
Dedicated team with extensive healthcare staffing and compliance expertise.
